

25 years of Health Care Events

ONE Agency - for all services!

Benefit from our **25 years of Health Care experience**, our professional customer and service orientation as well as our prompt, professional and adequate communication with customers. We are a **FULL-SERVICE agency** providing consultation and support to clients around the world in the field of B2B events.

To introduce our portfolio at first sight, we have clustered our numerous activities into three different categories:

-  The green category includes all **congress and meeting related activities**, subdivided into several service packages.
-  The grey category represents our non-congress **portfolio**.
-  Orange is not only the company color, the category represents **our matter of course** in all areas.

Due to specialists in all areas we are able to offer you professional services. You will always have **your individual contact person**, who supports you regarding all questions and interests.

25 years of Health Care Events

ONE Agency - for all services!

With our **guideline compliant** solutions we will support you as professional partner in different phases of your project.

	transparent offers and costs	<ul style="list-style-type: none"> • Inspection and evaluation of hotels/locations • Passing on of original costs • Clear breakdown of cost
	participant management	<ul style="list-style-type: none"> • Adequate travel booking • Check and correction of employer approval • Standardized handling of companion • Individual hotline and e-mail address
	preparation and realization	<ul style="list-style-type: none"> • Detailed hotel/location instructions • Full coordination of congress organizers • Creation of documents • Professional on-site support
	review	<ul style="list-style-type: none"> • Evaluation of attendance and feedback • Analysis of potential for optimization • Final documentation of all relevant compliance aspects
	Projectmanagement	<ul style="list-style-type: none"> • Individual participant tool • Implementation of transparency guideline • Creation of templates • Optimization of event structures and processes

Its your requirement and **your decision** and of course its up to you how many service packages you make use of.
