

Motto: Casino Royal

All guests receive chips that can be doubled, tripled or even played in blackjack, poker or roulette ...

Who has the most chips at the end - wins the main prize! Of course we can not convert that into cash;)

Each table is supervised by professional croupiers who explain all the rules to their guests. The right mood is provided by our DJ and our bar team provides additional sparkling experiences. Now the dice have fallen ... who has the best poker face or who has an "ace" up his sleeve? An exciting and entertaining evening guarantees a complete success and will long be remembered.
